

Early Intervention in the Hip and Knee

London, United Kingdom, 23-24 January 2009

Justin P Cobb

Professor of Orthopaedic Surgery

Dear Bharat,

In the afterglow of a great meeting I did want to email you personally to thank you for your excellent talk, and for your great contribution to both the TKA session and the rest of the meeting.

Your presence made a significant difference to the meeting and your statement that you had 2 billion knees to operate on put little Englanders firmly in their place.

The feedback we have got has been fantastic, and your specific feedback is appended. I hope all the arrangements worked for you, and that you got home safely.

If you have any ideas for next time, or comments on how things were run, do please email either myself or Joanna Wood, at one of the emails below.

Justin Cobb: j.cobb@imperial.ac.uk

Joanna Wood: joanna.wood@finsbury.org / +44 (0)1372 224251

With best wishes,

A handwritten signature in blue ink that reads "Justin Cobb".
